Subject : **Att. Dr. Narong - From one of your patients**

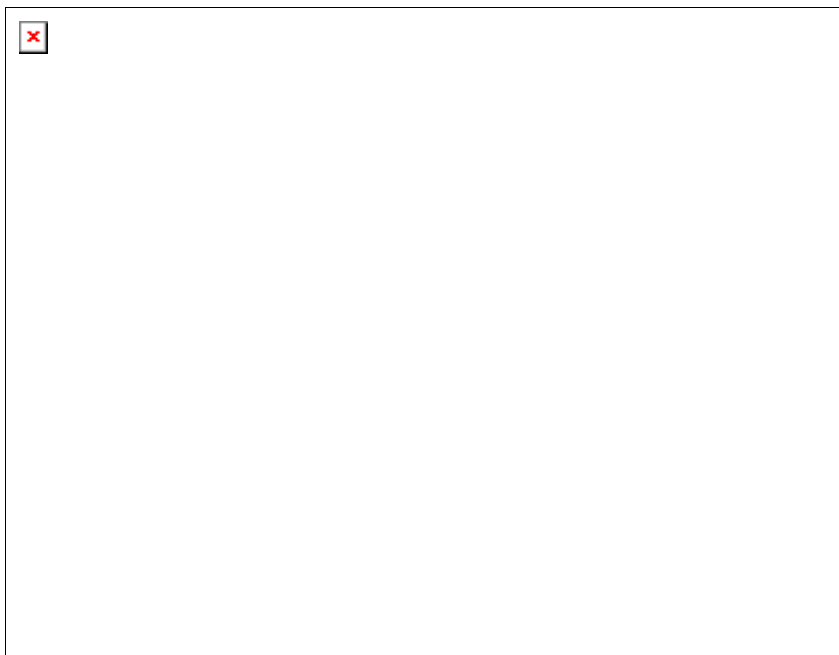

---

Dear Dr. Narong,

In May 2008 I was patient at your hospital and was operated by you twice after having had a serious accident by being hit on the road by a motorcycle. After being transported back to Austria I have stayed another four weeks in a Viennese hospital, then six weeks at home with plaster-casts on my left leg and arm and then I did a 7 weeks rehabilitation clinic near Vienna. Thanks to your excellent operations and treatment and doing a lot of exercises and trainings I am now in a position to live my normal life. I am still getting physiotherapeutical treatment for the left arm because there is still a restriction in turning the handwrist and stretching the fingers. The metal parts of the ulna were removed already in October 2008 and next week I will have removed the plates from my wrist and clavicle.

The pictures show the various steps of progress I have made until now, starting at your hospital, winning the first price at a competition at the rehabilitation clinic, walking trip in October and the last one from 2 days ago at the castle Laxenburg near Vienna where we are standing on a frozen lake covered with snow.

This is to thank you so much for all your and your team's efforts and kind treatment. It was confirmed by all doctors and experts involved in my recovery process that you did a really very good job. I am very happy to be in a position to write to you now and being in such a good condition. Please also give my very best regards to your colleagues and the staff who cared for me during my stay at your hospital.

In case you should come to Vienna sometime I would be glad to see you.

All the very best for you and your team,

Silvia Kammerer
